

AME International GmbH (AME) is a global healthcare technology solutions provider based in Vienna, Austria. We are focussing on sustainable healthcare technology projects in emerging economies and developing countries. To strengthen our team, we are looking for an engineer:

**Architect | Master Builder (m/f/d)**

**Location:** Vienna with international willingness to travel (Asia & Africa)

**Your qualifications**

- Completed university education (architecture or similar)
- Several years of professional experience paired with project responsibility in planning and execution as well as in construction supervision
- Knowledge in structural engineering, technical building equipment and interior design
- Good technical and commercial understanding
- Independent and customer-oriented work
- Very good knowledge of English and other foreign languages would be an advantage
- Interested in foreign cultures coupled with willingness to travel
- Solution-oriented, networked and creative thinking
- High degree of assertiveness and implementation skills
- Familiarity with common IT/software solutions

**Your responsibilities include**

- Independent responsibility for international construction activities in the planning and execution phase
- Coordination meetings with customers, users, authorities, architects and other project partners
- Support in drafting contracts with customers and manufacturers
- Budget and schedule control as well as resource coordination of the departments involved during the entire project duration
- Preparation of performance specifications
- Responsible and meaningful work

**We offer**

Independent work in a committed and motivated team, a varied job with the opportunity to learn and develop. You can expect an attractive working environment with numerous social benefits and opportunities for further training.

**Does this appeal to you?**

Then please send your written application with curriculum vitae and photo to our personnel manager Ms. Ilse Mayer: [i.mayer@ame-international.com](mailto:i.mayer@ame-international.com);
